

Round Ceiling Speakers

Clarity's Speaker/transformer/baffle assemblies are used with Clarity Mixer-Amplifiers to deliver a wide frequency response for general purpose voice and music reproduction. The Round Ceiling speakers are ideal for public buildings, healthcare and educational facilities, offices, banks, shopping areas, motels/hotels, distribution centers, transportation terminals and locations that require both voice paging and background music. The S-500VC includes a volume control knob for volume level selection.
